HEALTH, SAFETY AND SECURITY DIRECTIVES

I must notify work related incidents and
intervene when unsafe acts and conditions
are identified.

GE-M02-E05-A01 Trifold - Findings Intellex
Version: 02
Effective date: Nov 24, 2023
Revision date: Feb 11, 2025

EXAMPLES

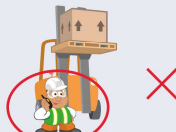

UNSAFE CONDITION

- Unattended material handling machine with a suspended load.
- Lack of delimitation.

UNSAFE ACT

- Standing under a suspended load.

SAFE FINDING

- Load at ground level.
- Work space delimited.
- Employees following the safety controls.

I SEE, I FIX

Safety is everyone's responsibility

I ask myself "What actions can I take to address and rectify this unsafe situation?"

If I see something that I can safely fix, I fix it.

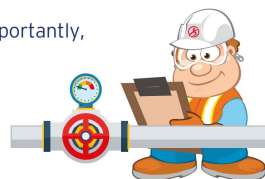

APPROACHES

The art of observation

- Observe what they are doing
- Listen what they are saying

- My demeanor is calm and friendly
- I do not assume
- I do not imagine
- I ask questions and, most importantly, I listen!

EVERY BEHAVIOUR IS DRIVEN BY AN UNDERLYING INTENTION

Dialogue and inquire

- What factors might be influencing the behavior?
- What are the underlying motivations driving this behavior?
- Is there a safer approach to achieve the same objective?

STOP WORK AUTHORITY

All employees have the authority and obligation to stop activities if they observe an:

- Unsafe condition.
- Unsafe act.

that may threaten a human life, the environment or company's assets.

SAY NO TO UNSAFE WORK

At Semptra Infrastructure we maintain the highest safety standards in our operations and construction projects.

RIGHT, AUTHORITY AND OBLIGATION
