Asunto: [EXTERNAL] Critical, OPERATIONAL FLOW ORDER/OFO, 20180119, EL PASO, 8001703

STRAINED OPERATING CONDITION (SOC) Declaration - System Wide DRAFT

EFFECTIVE DATE: **January 20, 2018**
EFFECTIVE TIME: **8:00 AM MST**
IMBALANCE TOLERANCE: **5%**

DURATION: Until Further Notice

AFFECTED AREAS/LOCATIONS: System-wide

OPERATING CONDITION SUMMARY: Currently the EPNG system is experiencing a draft condition with system linepack currently below at 7,390 MMcf and decreasing due deliveries in excess of scheduled quantities.

System linepack flexibility is significantly limited due to the loss of withdrawal capability at Washington Ranch (Reference Critical Notice Nos. 601208 and 601212).

CUSTOMER ACTION REQUIRED: Immediate action is required to insure that system pressure remain at a level capable of meeting scheduled deliveries off the system.

EPNG RESPONSE:

- Underperformance caps have been placed and will continue to be placed on underperforming supplies.
- IHSW service will be suspended.
- The loans and current park withdrawals associated with the interruptible Park and Loan Service ("PAL") will be reduced for Intraday 2 (CYCLE 4) for Gas Day January 19 and will be evaluated day to day.
- Imbalance payback off the system, such as Make-Up Delivery (MD) transactions, will be denied due to operational concerns related to maintaining adequate linepack.

REFERENCE INFORMATION:

For scheduling questions, please call your scheduling representative at (800) 238-3764.

For operational and capacity questions, please call Russ Pyeatt at (719) 520-3729 or Dan English at (719) 520-4722.
