Fundación IEnova

the true value of life

Fundación IEnova's goal and commitment is to improve quality of life for the communities where we operate and to which we belong.

2020 was an atypical year that will forever be part of our collective memory. It was a year of changes and new work dynamics, and it was year of enormous challenges, both personally and professionally. However, the year also helped us see what we are made of and the true value of life and people.

Amid extensive change, at IEnova we relied on our values and our commitment to the communities we are part of. Fundación IEnova's goal and commitment is to improve quality of life in the communities where we operate and to which we belong. We responded promptly and efficiently to the health contingency, in line with our values, and we did the right thing by allocating most of our budget to supporting those most affected by the pandemic.

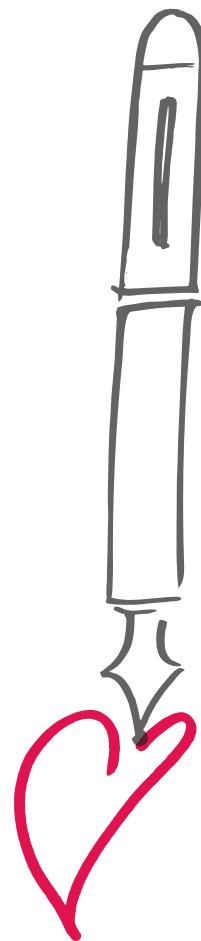

This report describes Fundación IEnova's results for 2020, during which we sponsored 35 projects and 20 organizations, directly benefiting 23 Mexican states.

As part of these projects, Fundación IEnova made donations for an unprecedented \$44.19 million pesos to mitigate the effects of COVID-19, working hand-in-hand with 9 organizations in two types of contributions: Medical protection equipment and supplies and food security.

Fundación IEnova is built with contributions from all of us. I wish to thank our Board and our Advisory Committee for their continued support. I also wish to thank our employees who are our inspiration and the impetus for this great project.

Chief Executive Officer of IEnova

Contributing to having a better world

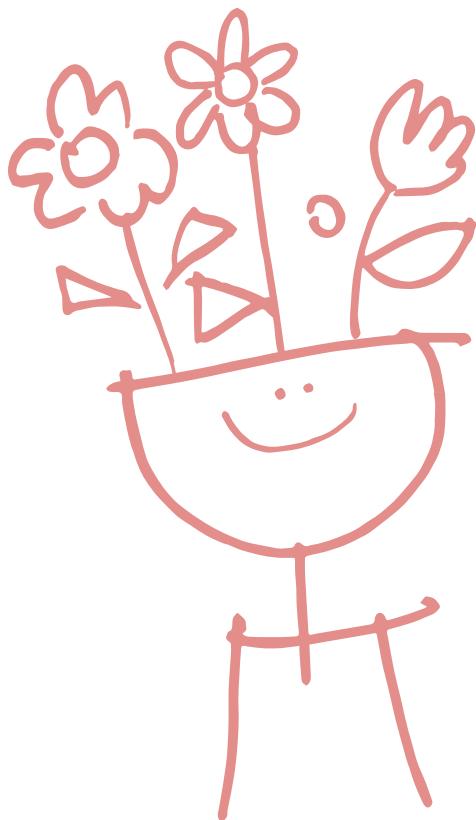

I am proud to report that despite a complicated world scenario, both IEnova and Fundación IEnova proved how social commitment guides our operations and the development of our projects.

In 2020, Fundación IEnova granted \$63.33 million pesos, of which approximately two-thirds were allocated to projects aimed at giving our support to those most affected by the pandemic with two types of contributions: Medical protection equipment and supplies and food security. The remaining third was assigned to continuing our support of multi-annual or recurrent projects related to our flagship programs: scholarships for talented university-level students; improvements in foster homes and centers that provide aid to vulnerable groups, and comprehensive care for children with cancer, all of which we carry out in collaboration with organizations with which we have a standing relationship and which, because of current circumstances, required our continued support.

I especially wish to thank our employees who actively participated in our corporate volunteer campaigns in 2020, despite physical distancing and the difficulties they faced themselves. Today more than ever before, I am very proud to witness how IEnova continues to build a stronger Mexico and contributes to having a better world.

In 2020 we were, and continue to be, more than just energy!

Tania Ortiz Mena
Chief Executive Officer of IEnova

Fundación Enova

MORE THAN JUST ENERGY

Fundación IEnova

At IEnova we are strongly committed to improving the well-being of the communities to which we belong.

This is why, in April 2015 we created Fundación IEnova, A.C. (Fundación IEnova), a second-tier foundation duly authorized to make donations and economic contributions in compliance with the requirements set forth by the Mexican tax authority (Servicio de Administración Tributaria, SAT).

Through Fundación IEnova's work, we strive to strengthen and maximize the positive impact of our activities in the communities where we operate.

Our Mission

At Fundación IEnova we are committed to transforming lives by supporting organizations and programs that contribute to the development of the communities to which we belong.

Areas of Giving

We focus on sponsoring projects that offer greater mid- and long-term benefits to the community in four areas:

During 2020, given the public health contingency that affected Mexico and the world, Fundación IEnova's governance bodies promptly and responsibly decided to allocate the majority of the foundation's budget to support people affected by the COVID-19 pandemic with **two types of contributions:**

Medical
equipment
and protection
Supplies

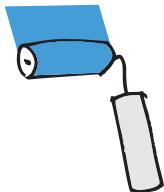

Food
security

A portion of the budget was reserved to support multi-annual projects and those with whom we have a standing relationship focusing on:

SCHOLARSHIPS FOR TALENTED UNIVERSITY-LEVEL STUDENTS

who need support in order to continue their studies.

INFRASTRUCTURE IMPROVEMENTS

in foster homes and centers that care for vulnerable groups.

INTEGRAL CARE

for children with cancer.

Corporate Governance

2020 Managing Structure

Fundación IEnova has an Advisory Committee and a Managing Board. The Advisory Committee is chaired by the Chairman of the Board of Directors and Executive Chairman of IEnova and includes the company's CEO and Executive Vice-Presidents.

Several employees are members of the Managing Board and it is chaired by the Chief Sustainability, Corporate and Public Affairs Officer.

Methodology
for Granting

Donations

Fundación IEnova supports **non-profit organizations approved by the Mexican tax authority (SAT)** whose activities are aligned with one of the priority programs and/or with the corporate purpose described in the Foundation's bylaws.

Fundación IEnova uses an assessment methodology to determine which projects and organizations to sponsor.

In addition to providing transparency, this enables us to maximize the impact of the allocated resources.

Methodology

a

Each application is thoroughly reviewed. By employing our methodology, we can assess the soundness of an organization by reviewing factors such as corporate governance, transparency, experience, recognitions, and sustainability.

We also analyze the project, location, performance indicators, potential results and impacts, as well as sustainability-related plans, among other aspects.

Organizations that receive the best evaluations are deemed preselected to receive a donation.

c

Prior to delivering the resources, we carry out an anti-corruption process in accordance with the Foreign Corrupt Practices Act (FCPA) and IEnova's Corporate Ethics Policy and Anti-corruption Procedure for the Approval of Donations, Sponsorships, Improvements, and Memberships, implemented by the Corporate Ethics division.

d

Once authorized, we sign a collaboration agreement with the selected organizations establishing the conditions related to the donation.

b

Fundación IEnova's management team presents the preselected projects to the Managing Board for approval.

Subsequently, the projects approved by the Managing Board are presented to the Advisory Committee to evaluate and, if applicable, approve them. The Advisory Committee also analyzes the results and management of Fundación IEnova.

e

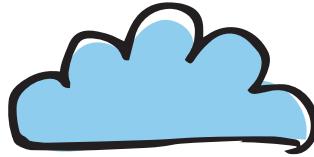

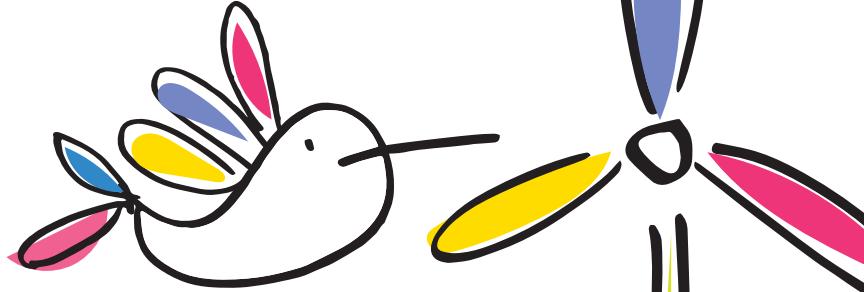

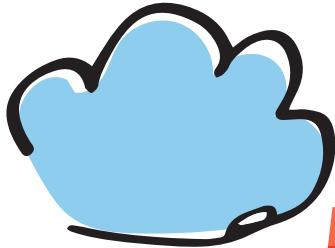

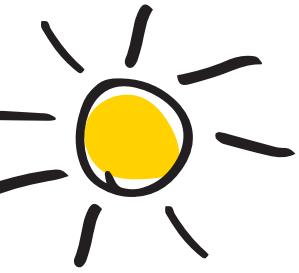

During a normal Fundación IEnova operating cycle, donations are transferred in December and are closely monitored from the moment they are granted and until the economic resources are spent. The organization must submit quarterly reports as well as the supporting documentation needed to verify compliance with the timetable and conditions established in Fundación IEnova's execution plan.

During 2020, we applied the emergency mode stipulations included in our donation approval process so that we could allocate our support in a timely manner to those affected by COVID-19.

Results and Contribution to the UN Sustainable Development Goals

In 2019, we carried out a study to better understand how the Foundation's actions contribute to the UN Sustainable Development Goals (SDGs). Based on the SDGs, we established objectives and indicators to accurately measure our impact.

Education

Education

During 2020, our projects contributed mainly to SDGs 4, 8, and 10 regarding quality education, decent work, and reduced inequalities.

Goals defined by United Nations

SDG 4 *Quality Education*

4
QUALITY
EDUCATION

4.3. Equal access to affordable and quality technical, vocational, and tertiary education, including university.

4.4. Substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs, and entrepreneurship.

4.b. Expand the number of scholarships available.

8
DECENT WORK
AND ECONOMIC
GROWTH

SDG 8 *Decent Work and Economic Growth*

8.6. Substantially reduce the proportion of youth not in employment, education, or training.

10
REDUCED
INEQUALITIES

SDG 10 *Reduced Inequalities*

10.2. Empower and promote the social, economic, and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion, or economic or other status.

Expected Results

100 university-level scholarships.

- 54 partial tuition scholarships.
- 2 **Fundación IEnova Generational Scholarships** enabling university-level students to complete their studies at CETYS University. (Our first scholarship recipient is studying his second year to obtain a degree in Industrial Engineering. The second recipient is about to begin his studies).
- 6 **scholarships for a semester of study abroad.** Because of the health contingency and travel restrictions, support for the scholarship recipients that are already in Germany is pending.
- 38 **stipend scholarships (for housing and food)** for indigenous students in the state of Sonora (of the Yaqui and Mayo ethnic groups, among others) as part of the Pro Becas program, which includes both tuition and stipend fees.
- 16 **scholarships for programmer training and certification** for young people between the ages of 11 and 17 in Mexico City (Casa PACO). We will continue to offer eyesight tests and give glasses to recipients who need them.

We made two donations to contribute to remodeling and expanding the Mexican energy and technology museum known as Museo Nacional de Energía y Tecnología through Trust number F/744942 (FIMUNET) to create awareness of how science and technology are related to energy.

Community Services

Community Services

Goals defined by United Nations

Our projects contribute to SDGs 1, 2, and, 3 regarding end of poverty, zero hunger, and good health and well-being. Additionally, in 2020, we contributed to SDGs 10, 11, and 12 regarding reduced inequalities, sustainable cities and communities, and responsible production and consumption.

SDG 1 *End Poverty in all its forms Everywhere*

1.5. Build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social, and environmental shocks and disasters.

SDG 2 *Zero Hunger*

2.1. End hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious, and sufficient food all year round.

2.2. End all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women, and older persons.

SDG 3. *Good Health and Well-Being*

3.4. Reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.

3.8. Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality, and affordable essential medicines and vaccines for all.

3.c. Substantially increase health financing and the recruitment, development, training, and retention of the health workforce in developing countries, especially in least developed countries and small island developing states.

3.d. Strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks.

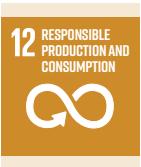

SDG 10 *Reduced Inequalities*

10.2. Empower and promote the social, economic, and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion, or economic or other status.

SDG 11 *Sustainable Cities and Communities*

11.5. Significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations.

SDG 12 *Responsible Production and Consumption*

12.3. Halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses.

Expected results

• Flagship program for the Community Services pillar: Integral Care for Children with Cancer: for the third consecutive year we continued working in collaboration with Casa de la Amistad para Niños con Cáncer, I.A.P. offering approximately 145 benefits for children who receive aid from CDLA in different states, including Aguascalientes, Baja California, Chiapas, Estado de México, Mexico City, Nuevo León, Sinaloa, Tabasco, Tamaulipas, and Veracruz.

M: Figures in millions of Mexican pesos

- Red Cross Winter Plan: for the sixth consecutive year we collaborated in offering humanitarian aid, which included providing packages with basic food supplies, blankets, and winter clothes to people living in communities in the Sierra Tarahumara, in the state of Chihuahua, who are most affected every year by low temperatures during winter. We provided 1,416 food packages.
- Food security for 4 organizations that offer help to vulnerable groups with which we have implemented projects during prior cycles, offering food in a sustainable manner to more than 440 direct beneficiaries of A Favor del Niño, I.A.P., Antes de Partir, A.C., Casa Hogar del Anciano de Ensenada, A.C. (CHAE), and Casa Hogar para Varones, A.C. (CAHOVA).

Other Community Services Donations:

- As part of our Collaboration Agreement with the Mexican Red Cross (Cruz Roja Mexicana, I.A.P.) for rapid response in case of natural disasters, we made a donation for \$250,000 pesos to help victims in the communities affected by floods in the state of Tabasco in October 2020.
- We supported the 2019-2020 Resilient Schools program of the Mexican Red Cross (Cruz Roja Mexicana, I.A.P.) developed after the 2017 earthquakes, identifying the importance and benefit of training students and school personnel on how to act in case of emergency or natural disaster. During the current phase, the project benefited 18 schools (6 in Mexico City, 3 in the Estado de México, 5 in Morelos, and 4 in Puebla), including two schools in Santa Isabel Cholula, in the state of Puebla, that were rebuilt by IEnova after the 2017 earthquakes. The goal behind this project is to generate know-how and capabilities in children and school personnel to respond in case of an emergency, promote healthy lifestyles, and develop abilities to improve communal living. During the pandemic, online COVID-19-related trainings were offered.

Corporate Volunteers

Our corporate volunteers are an integral part of our social commitment. Fundación IEnova's corporate volunteer events are held twice a year at eight institutions that are part of the Triannual Foster Home Adoption Program for Infrastructure Improvements.

During 2020, because of the health contingency, we carried out virtual campaigns among our employees for their continued direct support for the foster homes with the following results:

ESCUELA + SONRISAS:

203 school supplies packages delivered in eight cities:
Chihuahua, Mexico City, Ensenada, Hermosillo, Mexicali, Monterrey, Torreón, and Veracruz

Árbol de la Sonrisa:

183 packages including clothes, shoes, and toys delivered in seven cities:
Chihuahua, Mexico City, Hermosillo, Mexicali, Monterrey, Torreón, and Veracruz

Volunteers

In response to Fundación IEnova's invitation, our employees directly supported these organizations with the resources needed to buy school supplies and technological tools. In addition, they donated clothes, toys, and shoes during the December holidays

386 packages

Including school supplies, clothes, shoes, and toys donated to children and young people through our corporate volunteers program

In 2020 we did not estimate the monetary value of the time donated by employees who participated in corporate volunteer events during work hours because no in-person events were held during the pandemic.
