- In 2020, ENova Adjusted EBITDA increased 7 percent to \$1,006.1 million, compared with \$938.2 million in the same period of 2019. The increase of \$67.9 million was mainly due to the start of operations of the South Texas - Tuxpan pipeline, partially offset by the revenue deferment at the Guaymas - El Oro pipeline and lower operational results at Termoeléctrica de Mexicali power plant.
- In 2020, profit was \$461.1 million, compared with \$467.7 million in the same period of 2019. The decrease of \$6.6 million was mainly due to non-cash exchange rate effects and higher depreciation, offset by EBITDA drivers mentioned above.
- In 2020, revenues were \$1,261.3 million, compared with \$1,379.3 million in the same period of 2019. The decrease of \$118.0 million was mainly due to lower price of natural gas sold (offset in cost of revenues), lower operational results at Termoeléctrica de Mexicali power plant, the revenue deferment at the Guaymas - El Oro pipeline, lower performance at Ventika and a one-time distribution rates true-up at Ecogas Chihuahua in 2019, partially offset by higher transportation rates and the start of operations during 2019 of Pima, Rumorosa and Tepezala solar facilities.
- The Company maintains strong level of liquidity with approximately \$1.7 billion of cash balances and availability of committed credit lines.

- The Company reorganized its prior reporting segments effective first quarter of 2020. The change does not affect the accounting policies nor the preparation basis of the financial information. ECA Regas considers that Shell's claims are unfounded and inadmissible and will assert its rights in the corresponding arbitration process, seeking to dismiss the counterparty's claims.

In November 2020, the Company informed that its subsidiary ECA Regas, received confirmation that its customer Gazprom Marketing & Trading México, S. de R.L. de C.V. In 2020, our Share of Profit from Joint Ventures, net of Income Tax was \$157.8 million compared with \$39.8 million for the same period of 2019.
